2 week Sampling

Comments 2 week Routine Sampling, Last 2 weeks were very wet and very strong winds with the last week containing some heavy frost at night. Sample D.T. 20 has some pine needles and debris as a large twig moved the filter to one side of funnel thus allowing needles into sample. I still supplied sample but will leave it up to your judgement. I need more 250 ml bottles and gloves and field sample sheets as I ask in last time samples (Also there is funnel).

Supplies required	
250 mL bottles	Need Bottles
White funnels/bottles	
Field sheets	Need field sheets
If you want to change funnels & bottles for next time your decision Thomas (Ring me) All funnels and bottles are out 4 weeks now.	

of Bott for Collection since before Christmas
