Comments Very, Wet, Windy and Cold Today
 Water finding it hard to get from funnel to bottle
 because of pine's needles, twigs and branches blocking
 it. A lot more water in the funnel than usually making
 them very heavy and lopsided in place. (Straighten them
 back up.) Also some of the black funnel on the D.P. site
 had blown out of the worn pipes. No damage done and
 put them back in the pipes again. David Farrell.

Supplies required
